Sales Talking Points

For Cost-Conscious Buyers

"At \$99/month, SpaceVoice costs less than 2 hours of a receptionist's time. You get 24/7 coverage, never miss a call, and save over \$30,000 annually."

For Quality-Focused Buyers

"Our Premium tier uses OpenAI's latest voice technology—the same AI powering ChatGPT. Your callers won't know they're talking to AI."

For High-Volume Buyers

"At scale, we're 40-70% cheaper than Retell and Vapi. Our Budget tier at \$0.05/minute means a 5-minute call costs just 25 cents."

For Enterprise Buyers

"We include dedicated support, custom integrations, and hands-on onboarding. Our setup fee reflects real value—not a DIY platform."

Objection Handling

"Your setup fee is too high"

"Our setup fee includes personalized agent configuration, integration support, and 30-90 days of dedicated support. Competitors charge \$0 because they offer zero support—you're on your own. Our clients are up and running in days, not weeks."

"Competitor X is cheaper per minute"

"When you add up their hidden costs—separate STT, TTS, LLM, and telephony fees—they're actually 30-50% more expensive. Our pricing is all-inclusive."

"We need HIPAA compliance"

"We can add HIPAA compliance for \$500/month—compared to Vapi's \$1,000/month. Our total cost is still lower."

"Can we get a discount?"

Volume discounts available:

- *\$500+/month: 10% off*
